

# ŞEVVAL TUNCAY

Computer Engineering Student

## ABOUT ME

Hello! I'm Şevval Tuncay, a 4th year computer engineering student and a full stack web developer. My passion for technology and innovation constantly drives me to learn and improve myself. I work professionally in full stack web development. I enjoy collaborating within a team to create customer-focused solutions, enhance user experience, and increase functionality. I am proficient in utilizing both frontend and backend technologies, as well as modern web development tools and frameworks. Feel free to reach out to me; I am always happy to collaborate on new projects and discuss any technology-related topics!
